**Vermont Statewide Parcel Mapping Program**  
**Monday, February 4<sup>th</sup>, 10:00 AM – 12:00 PM**  
**Arlington Town Office Meeting Room**

The Bennington County Regional Commission is hosting a meeting of our towns to provide information and updates on the Statewide Property Mapping Project with staff from the Vermont Center of Geographic Information. The project is a state funded effort to update GIS property parcel data for every town in Vermont and to match it with the Town’s Grand List. You can learn about the project at <https://vcgi.vermont.gov/parcels>.

We are reaching out to you as you are listed as a contact for your town or you are a town lister. Year 3 (2019) towns are welcome to learn what is in store for the project this year. Year 1 (2017) towns that have already participated in the project are welcome to come learn more about the update process and the new online Vermont parcels viewer web mapping application. Year 2 (2018-2019) towns that are currently underway are also welcome yet are not required to attend.

Year 1 Towns

- Arlington
- Bennington
- Dorset
- Landgrove
- Pownal
- Sandgate
- Sunderland
- Woodford

Year 2 Towns

- Glastenbury
- Rupert
